

Northern Light Quilt Guild Mystery Quilt 2009

The description will be for three different sizes, all with the same setting. The difference is in the size of the blocks.

Step 1: Choosing Your Fabric

Fabric Requirements:

1) Fabric Choices: a wide array of different choices is possible here. You will need 4 fabrics for this quilt. I have called them Background, Focus, Dark, and Medium. When choosing the fabric for this quilt, bear in mind that there is a lot of “background” to this quilt. Be sure that there is contrast between “focus” and “dark”. The “medium” fabric could be a brighter fabric than the rest.

Remember: just because I call it dark or medium, doesn't mean that's what you have to choose. In your case it might be that dark means extra bright, or background may be very dark. I just have to have a way to distinguish one fabric from the other in the pattern.

2) Quilt Size Choice: As you can see in the table below, there is a choice of 3 different quilt sizes. The difference in size comes from the difference in block size. Choose the one you wish to make and follow the instructions for that quilt

3) Amounts: **Please note that these are minimum requirements.** I could have made an error (but have checked several times) or you could make a cutting error, so please do start with a little more than I have listed

Quilt size	Block size	Background	Focus (incl. outer border + binding)	Dark (incl. inner border)	Contrast
23 x 31"	4"	26" (66 cm)	13.5" (35 cm)	10" (25 cm)	5.5" (15 cm)
51 x 67"	8"	66" (1.8 m)	45" (1.15 m)	22" (55 cm)	15" (40 cm)
64 x 84"	10"	86" (2.2 m)	65" (1.7m)	50" (1.3 m)	22.5" (60 cm)

From this point forward, you will find the instructions per block size to avoid confusion.

To assist with minimizing copying of the patterns, please sign up indicating which size pattern you would like to receive
